

MindNote

User guide

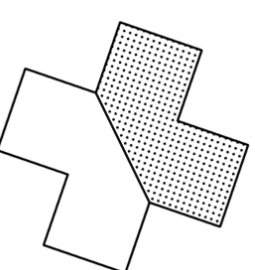

1. Home Page

The first page the user will see is the Home page. It contains a short description of the application. There are also two buttons - login and register, which after pressing will redirect to the login and register page respectively.

2. Navbar

Navbar layout changes depending on whether the user is logged in or not. Before logging in, there will be only two buttons: MindNote (Home) and Login button. After login, new buttons will appear, such as dropdown button for Notes and Collections, Friends, Notes and Logout button (it will substitute the Login Button)

Navbar before login:

Navbar after login:

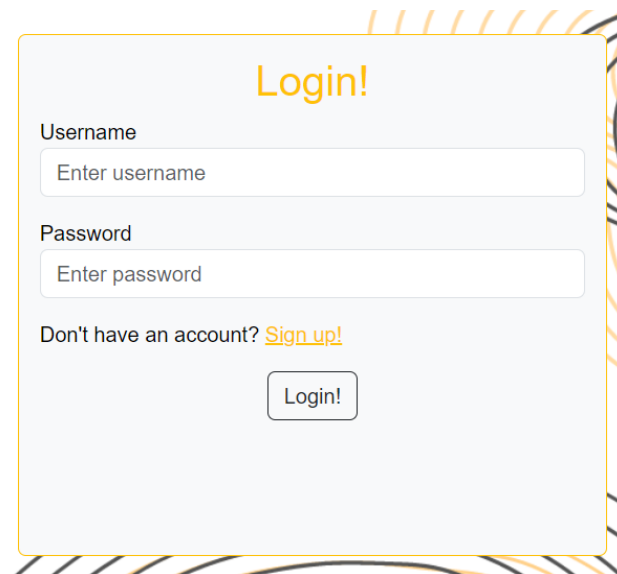

3. Login

To login, the user has to provide an username and a password of the already existing account. If those requirements weren't met, the error message will be shown.

If a user doesn't have an account, they can follow a link to the SignUp page.

Login form:

A login form with a light gray background and a yellow border. At the top, it says "Login!" in yellow. Below that, there are two input fields: "Username" with the placeholder "Enter username" and "Password" with the placeholder "Enter password". Below the password field, there is a link that says "Don't have an account? [Sign up!](#)". At the bottom, there is a "Login!" button.

4. Register

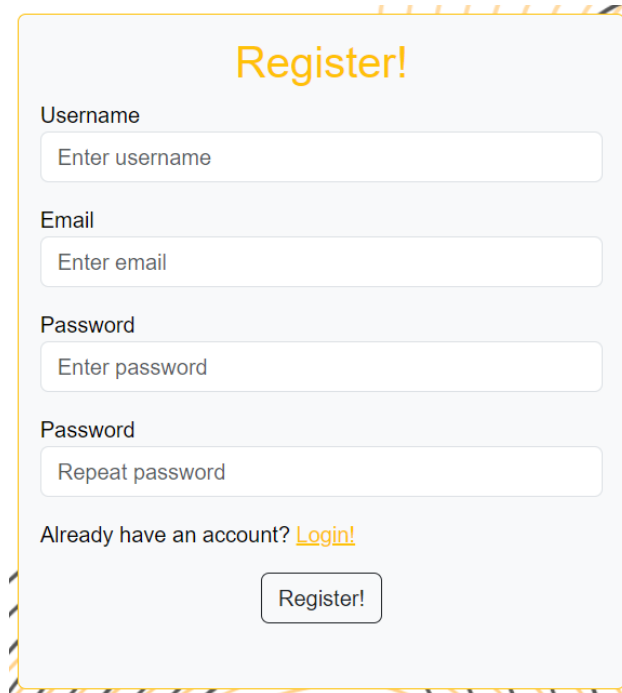

To register, the user has to provide the values for username, email address, password and repeat password.

- field cannot be empty
- username and email address have to be unique
- the email address has to follow this template: name@domain, e.g. simple@example.com

- password and repeat password must be the same
- password must contain at least 5 characters

If a user wants to login instead, they can follow a Login link.

5. Notes

On the notes page the user can access their notes.

Clicking the Create Note button will redirect to the Add Note page.

There are also three buttons for showing the user's notes, notes shared with a user and notes which current user is sharing.

Create Note

Your notes Notes shared with you Notes you are sharing

Note 1
 Note 1 description

Note 2
 Note 2 description

Note 3
 Note 3 description

Each note has three buttons: Details, Delete Note and Share Note. After pressing the first one, it is possible to see more information about the given note, as well as change its details. Clicking Delete Note will permanently remove a given note from the user's notes list. When clicking the Share Note pop up window is displayed, where the user sees a list of friends with whom they share that note as well as a list of friends with whom they can share notes.

1. Edit note:

The screenshot shows a form titled 'Note 1' in orange text. Below the title, there is a section 'Change Title' with a text input field containing 'Note 1'. Below that is a section 'Your note description:' with a larger text input field containing 'Note 1 description'. Further down is a section 'Upload Image' with two buttons: 'Choose file' and 'No file chosen'. At the bottom of the form is a button labeled 'Apply Changes'. The form is set against a light gray background with orange and black wavy lines on the sides.

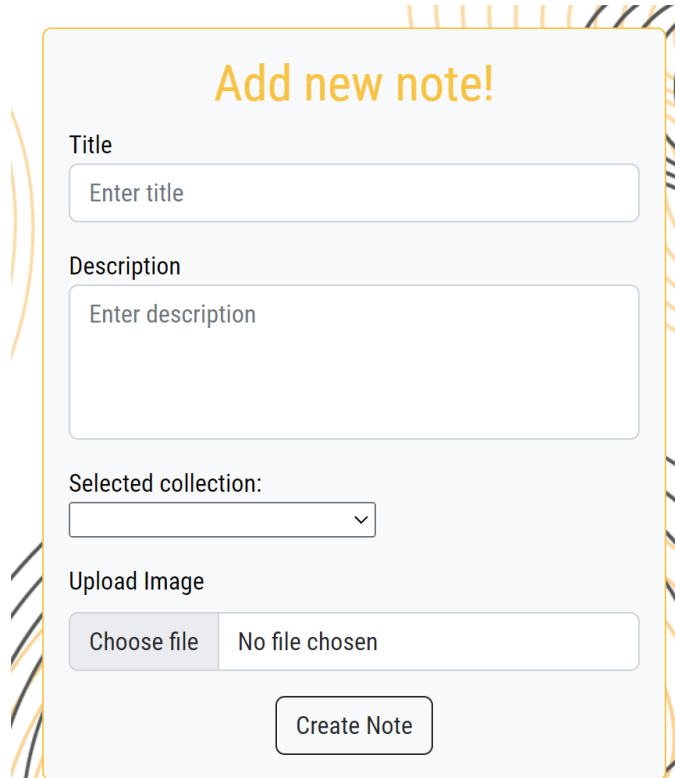

2. Share note:

The screenshot shows a pop-up window titled 'Share with your friends' with a close button (X) in the top right corner. Inside the window, there are two sections: 'Stop sharing note with:' and 'Share note with:'. The 'Stop sharing note with:' section has a single input field with a checkbox and the text 'example user 1'. The 'Share note with:' section has two input fields, each with a checkbox and the text 'example user 2' and 'example user 3' respectively. At the bottom right of the window are two buttons: 'Close' and 'Share'.

6. Add Note

To create a new note, it is mandatory to provide a title and description. The note will be created with the default image and added to the user's notes list.

Add Note page:

A screenshot of a web form titled "Add new note!". The form is light blue with a yellow border and is set against a background of a yellow notepad with blue lines. It contains the following fields: a "Title" label above a text input with placeholder "Enter title"; a "Description" label above a larger text input with placeholder "Enter description"; a "Selected collection:" label above a dropdown menu; and an "Upload Image" section with a "Choose file" button and a "No file chosen" text. At the bottom right is a "Create Note" button.

Create Note

7. Collections

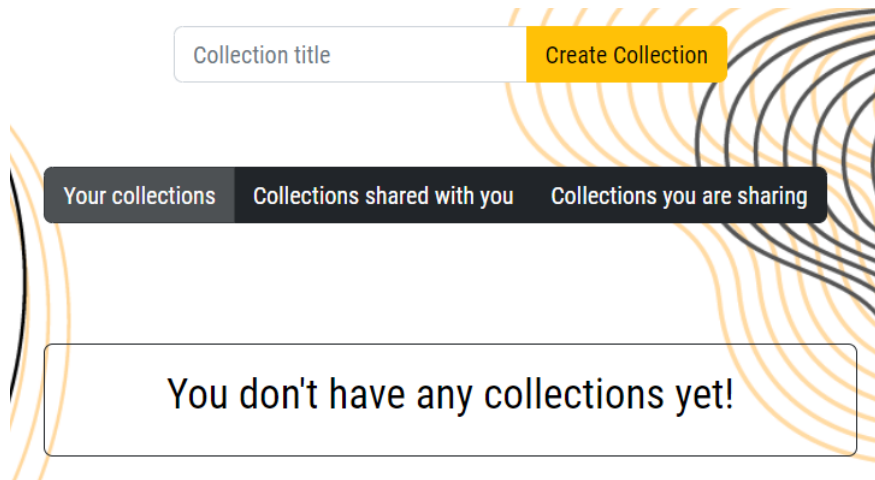

On the collections page the user can access their collections, as well as create a new one.

For creating a new collection it is necessary to provide the collection's name (which can't be empty) and then click the Create Collection button.

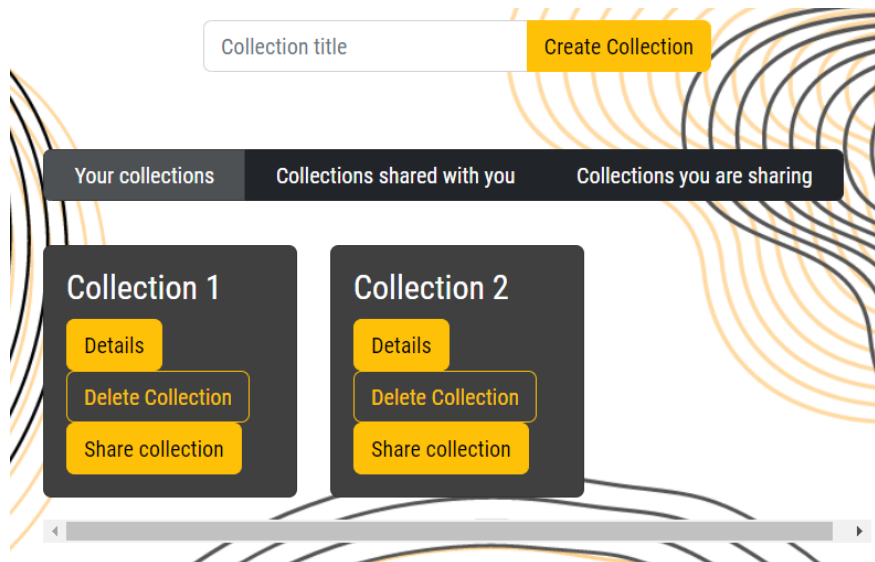

Just as with the Notes page, there are three buttons for showing the user's notes, notes shared with a user and notes which the current user is sharing.

Collections page when user doesn't have any collections:

Collections page after creating collections:

Each collection has three buttons: Details, Delete Collection and Share Collection . After pressing the first one, it is possible to see all notes that are in the given collection. Clicking Delete Collection will permanently remove a given collection from the user's collections list. When clicking the Share Collection pop up window is displayed, where the user sees a list of friends with whom they share that collection as well as a list of friends with whom they can share collections.

1. Details

Collection page if a given collection doesn't contain any notes.

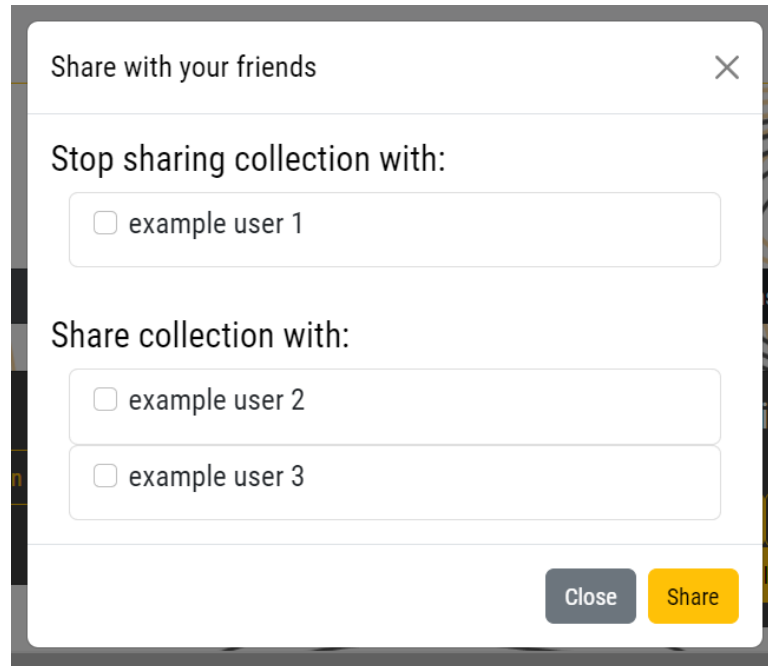

Collection page after adding notes.

It is possible to remove notes from a given collection.

2. Share collection

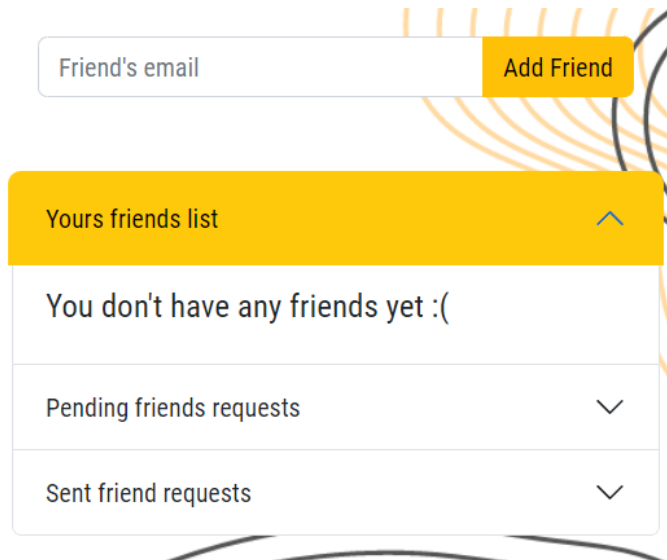

A modal dialog box titled "Share with your friends" with a close button (X) in the top right corner. The dialog is divided into two sections. The first section, "Stop sharing collection with:", contains a single input field with a checkbox and the text "example user 1". The second section, "Share collection with:", contains two stacked input fields, each with a checkbox and the text "example user 2" and "example user 3" respectively. At the bottom right of the dialog are two buttons: a grey "Close" button and a yellow "Share" button.

8. Friends

On the friends page users can send friend requests, as well as manage their friendships.

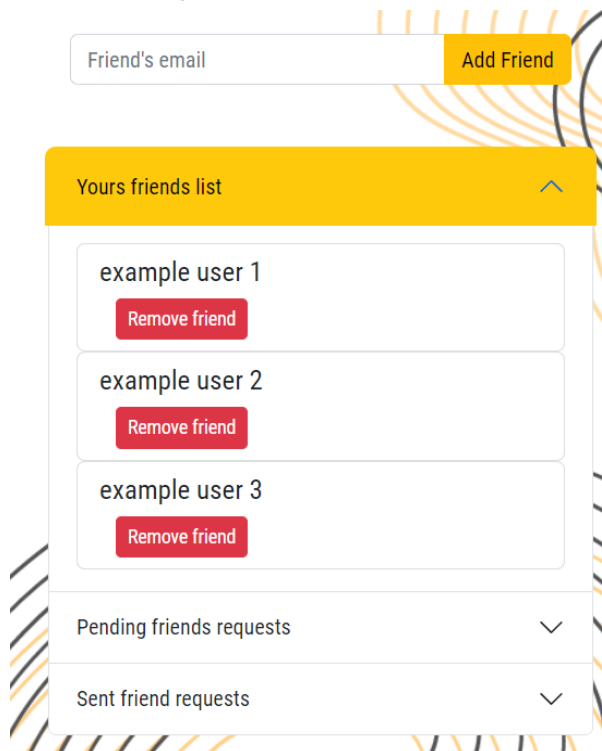

1. Friends list

Friends list if user doesn't have any friends:

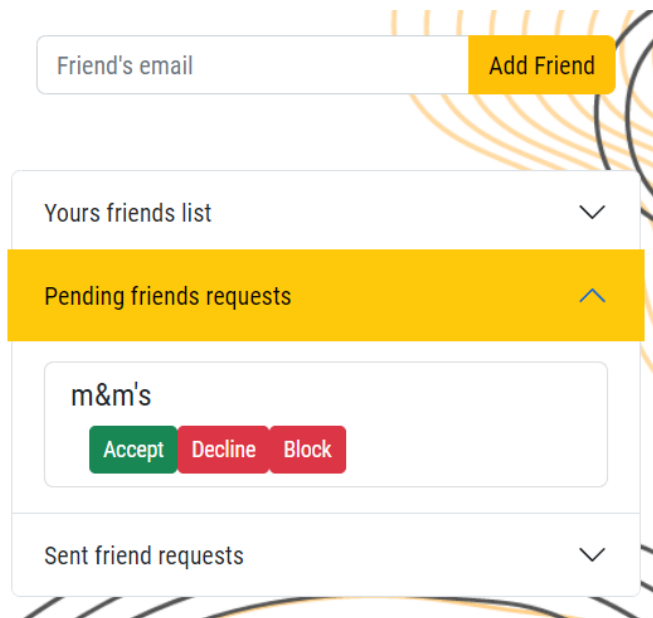

The interface for the friends list. At the top is a search bar labeled "Friend's email" with a yellow "Add Friend" button to its right. Below this is a yellow header bar labeled "Yours friends list" with a blue upward arrow icon. The main content area shows the message "You don't have any friends yet :(". Below this are two expandable sections: "Pending friends requests" and "Sent friend requests", each with a downward arrow icon on the right.

Friends list after accepting friends invitation:

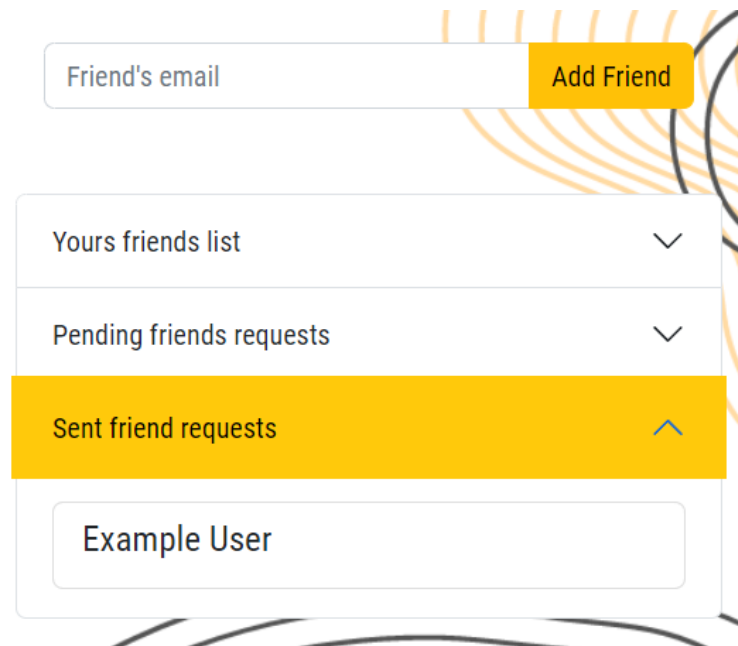

2. Pending friends requests

Here user can accept, decline or block friend requests. After blocking a user, the person sending the invitation will not be able to do it again.

3. Sent friends requests

Admin Guide

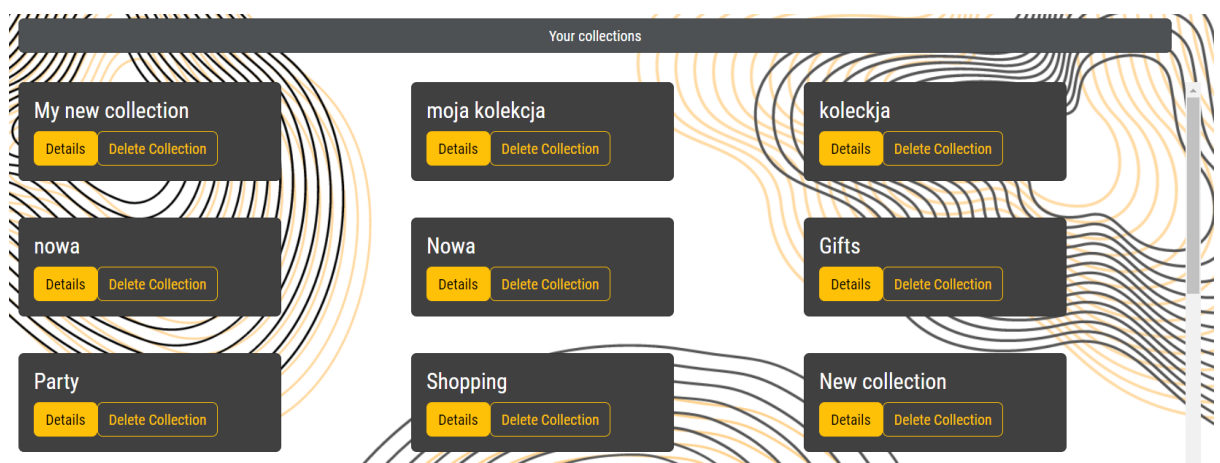

1. Notes

Admin can change notes' details, as well as delete a given note.

2. Collections

Admin can see the details of the given collection and remove the given collection. After going to the collection page, admin can remove notes from a given collection.

3. Users

Here admin can change users' details as well as remove users.

The image displays eight user management forms arranged in two rows of four. Each form contains the following fields and buttons:

- Username:** A text input field.
- Email:** A text input field.
- User Id:** A text input field displaying a long alphanumeric string.
- Buttons:** Two buttons labeled "Save" (orange) and "Delete user" (grey).

The forms are set against a background of orange and black wavy lines.

4. Friendships

Here admin can remove existing friendships and change the status of existing ones (for example change status from 'pending' to 'accepted').

The image displays four friendship management forms arranged in a single row. Each form contains the following fields and buttons:

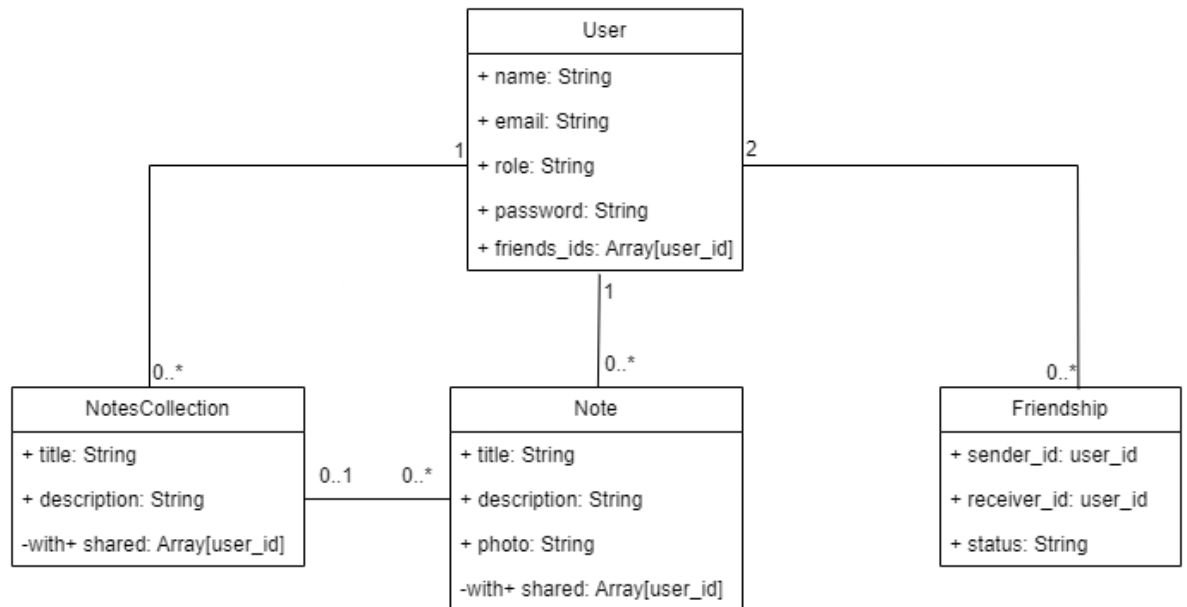

- Request id:** A text input field displaying a long alphanumeric string.
- From user:** A text input field.
- To user:** A text input field.
- Status:** A dropdown menu with options like "Accepted" or "Pending".
- Buttons:** Two buttons labeled "Save" (orange) and "Delete friendship" (grey).

The forms are set against a background of orange and black wavy lines.
